PROFILE

Graduated in Architecture, focus on the importance of the visual and usual aspect when developing a product. I completed a career migration and currently develop web applications, using tools such as Ruby on Rails, Javascript, SASS, Bootstrap, React, among others. Committed to creating exceptional and functional online experiences for users.

LB

PROFESSIONAL EXPERIENCE

Full Stack Developer, Le Wagon

jul de 2023 - set de 2023

I developed a web app in a team of 4 people, which consists of a web application that reminds you when to water your plants and teaches you how to care for them. The technologies used in this project were HTML, Scss, Javascript, Bootstrap, Ruby, Ruby on Rails, Stimulus, Heroku and use of APIs.

Architect, Hirota Food Supermercados
